Evidence based learning resources

The Palliative Care Curriculum for Undergraduates (PCC4U) project includes a series of student-centred learning modules and focus topics.

The **core modules** articulate with the graduate capabilities in palliative care:

MODULE 1	Principles of palliative care
MODULE 2	Communicating with people with life-limiting illnesses
MODULE 3	Palliative assessment & intervention
MODULE 4	Optimising function in palliative care

The **focus topics** aim to support learning about palliative care in specific populations and contexts:

TOPIC 1	A multidisciplinary approach in palliative care
TOPIC 2	Caring for Aboriginal people with life-limiting conditions
TOPIC 3	Caring for children with life-limiting conditions
TOPIC 4	Cultural diversity and palliative care

Each module and topic includes thinking points and an integrated video case study. The resources can be used to support learning and teaching for students from any discipline.
